RE: Coronavirus (COVID-19) Guidance at AMITY

It is important that we take action to reduce the risk of contracting or spreading the virus. Based on Interim Guidance from the CDC, State, and Local health officials, AMITY will be instituting the following practices at our facilities:

- 1) We will need to restrict non-essential visitors, volunteers, communal and group activities at AMITY Facilities for the safety of Residents and Staff.
- 2) Continue deep cleaning high contact areas with anti-microbial agents.
- 3) Continue to use infection control process with Staff.
- 4) We will be monitoring for signs and symptoms of cough, shortness of breath, sore throat, or fever in everyone in Staff and Residents.

We hope that implementing these precautions will ensure the safety of our Residents and Staff.
